

Helping you with the cost of living

The pandemic and Putin's invasion of Ukraine have caused unprecedented global challenges – particularly on energy prices. So we're taking action to help you and your family keep costs down and deliver a stronger, more secure economy.

- ✓ **Extra help with energy bills**
- ✓ **Lower taxes for working people**
- ✓ **Fuel duty cut**
- ✓ **More jobs and better pay**

We're taking action to help families deal with the global cost of living crisis, with a long-term plan to grow our economy.

- ✓ **Providing every household with a £400 grant towards this year's energy bills.** On top of April's £150 Council Tax rebate for band A to D homes. Helping families with the cost of household bills.
- ✓ **Increasing the amount people can earn before they start paying National Insurance.** Saving 30 million workers £330 a year. And raising the National Living Wage to £9.50 an hour. Ensuring better pay and lower taxes for millions of workers.
- ✓ **Providing an extra £650 for eight million vulnerable households on means-tested benefits.** And cutting the Universal Credit taper rate, meaning a further £1,000 on average for two million families.
- ✓ **Cutting fuel duty by 5p per litre. Following a twelve-year fuel duty freeze.** Together helping save the average driver £100 a year at the pump.

- ✓ **Providing additional support to eight million pensioner households.** By increasing the Winter Fuel Payment to £300, together with a further £300 cost of living payment.
- ✓ **Launching a multi-billion pound Plan for Jobs.** Helping more people to find work, earn a decent wage and get on in life.
- ✓ **Building a stronger, more secure economy.** By cutting taxes for families and smaller businesses, and incentivising investment to secure our long-term recovery.
